MSME (Udyam)	UDYAM-HR-07-0034799
Registered office	Bahadurgarh, Haryana
Operations	Greater Noida, Uttar Pradesh

WHAT WE SUPPLY

- Automation, control & instrumentation
- Electrical & power systems
- Networking, IT & security
- Machinery & process equipment
- MRO, tools & manufacturing supplies
- Safety, fire & environment
- Custom parts to drawing & OEM spares
- Field services, AMC & commissioning

HOW WE WORK WITH PUBLIC BUYERS

Multi-item tenders & BOQs

GeM, CPPP, PSU and railway bids that bundle many items from many makers — one bidder, one compliance matrix, one delivery.

Budgetary quotations

For estimates and indents before a tender: make options, local-content class, GST, validity and delivery.

Same-make spares

Like-for-like parts for installed equipment, Indian and global, through authorised channels; obsolete parts cross-referenced.

Supply with installation & AMC

Erection, commissioning and maintenance executed by Mecwerx, the engineering arm of Dryshades, under the same order.

MAKE IN INDIA — HOW LOCAL CONTENT IS HANDLED

- Class-I local makes (50%+ local content) first on every government line
- Local-content class declared per line against the manufacturer's declaration
- Country of origin stated on every line; OEM authorisation (MAF) where the bid asks
- China-origin makes are not offered against government or PSU bids
